

Dear Anthony & Carlo

I thought I would take a moment to thank you and your staff for an outstanding job with regards to both my Home Theatre and Multi-Room audio system.

The whole project was handled with a very high level of professionalism and completed with workmanship that is uncommon compared to other trades people I have dealt with in the past.

I also wanted compliment you on your expertise in choosing and designing the system. Your experience showed in your ability to make a complicated system easy to use.

It has been a pleasure meeting and working with you, whenever I want to add to my system you will be the only people I call. I can say without hesitation that I would recommend your services to anyone.

Please feel free to use me should you require a referral.

Sincerely,

Enzo Macri
President
